Explore and Investigate

Vocabulary

We ask questions about the world around us.

What our children think!
"Science is good when you discover new things!" (Year 3)
"Science is good when unexpected things happen." (Year 6)

We recognise the importance of science in society and the people who work in STEM.

"Science cures diseases." (Year 6)

Science doesn't always work first time, and this is a key part of learning. We reflect on and learn from our mistakes.

"You don't need to know everything." (Year 6)

We enjoy finding out new knowledge, undertaking our own investigations and observations.

"When science solves questions." (Year 6)
"I like taking lots of measurements." (Year 4)

We have a right to share and debate our ideas and give our opinions. We can learn from the experiences of past and present scientists.

"Science is good when we are talking about it." (Year 6)

We can carry out an investigation to explore the answers to a question.

"I like doing lots of experiments." (Year 3)
"I love learning about plants." (Year 5)

We can use and understand the vocabulary to explain the knowledge and the skills of a scientist.
